Old Business

Introduction of any discerning guests – we welcomed Andy S who is discerning

Brief recap of PLC meeting last month – Pat R. reported on last month’s PLC meeting

Information and Updates from Worship Commission Liaison – Lee T.

Organ at Epiphany Parish - getting new digital organ
 Sets of pipes may be free for the taking
 We have 12 ranks, our organ has lots of digital, added ranks would improve sound quality
 Issues would be how to incorporate, need new blower and new platform, how to move pipes to SJB, how to raise cost of integrating pipes into our organ

Next month, look to other committees – ASC/Finance

Regarding ceiling rework, asking ASC to get another bid on the work
 Is the ASC looking for better direction?
 We have concerns about the ceiling work – after this work will we be in the same position as now some years from now?

Review and finalize approval of reprioritized goals for FY 2022 based upon last month’s feedback – goals were discussed. The concept of “Vanguards” was suggested for Extraordinary Ministers of Holy Communion and Lectors, comparable for Ushers.

New Business

Sacrosanctum Concilium – This document is the Constitution on the Sacred Liturgy, an appropriate document for the Worship Commission to be familiar with. We discussed Chapter VII, Sacred Art and Sacred Furnishings, as a background for the reconfiguration of the Chapel of the Angels.

Related to this, discussed a subcommittee on the reconfiguration.

Review, discuss and approve revised mission statement – Discussed revised mission statement, will finalize next month
